

# REPORT CARD

**NAME:**

**YEAR:**

**TENETS**

**SCORE**

Bring meaning to every moment, starting now.

You're the developer of your own program.

Actualize together, even when it's hard.

My actualization is not oppressing you.

Treat me like a human, not a headline.

Always seek new worlds and experiences.

Celebrate discovery, not just results.

Use technology to feed the soul, not steal from it.

Honor belonging to multiple collectives.

Remember and revolt, deliberately and persistently.

Use accountability to liberate, not oppress.

Solve for my potential, not your possession.

Find the exits and keep them clear.
